PHOTOGRAPHIC JOURNEY TO FINLAND + WORKSHOP

ALEXANDRA **SURKOVA**

DATES

July 8 - 14, 2024

Group of 6 people max

GENERAL DESCRIPTION

2.450 euros

Finland, 'the land of a thousand lakes', boasts of its breathtaking nature and overflows with biodiversity. Its stunning forests hide Europe's wildest animal species: bears, wolves, wolverines, capercaillies, black grouse, as well as elusive boreal lynxes, moose, and reindeer.

During this trip, we explore the Kuhmo region, a premier destination for wildlife photographers. We travel through its endless forests and countless lakes, focusing on bear and wolverine photography.

We've selected the best time for bear photography, capturing them as they visit the lakes to cool off. Multiple sessions are conducted in comfortable hides, designed for an immersive nature experience. All hides are equipped with double bunk beds to have a rest during dark hours.

Midway, we'll conduct a photographic editing workshop with Alexandra Surkova, enhancing our captured images and elevating them to a new aesthetic dimension.
